Tile trim finish has a timeless, modern appeal that is a hallmark of the Bradford Signature Series Spas.

Unique to Bradford Spas is the stainless steel collection port. This reduces the number of visible fittings and drain covers in the spa foot well.

Open, unobstructed bench seating allows all bathers freedom of movement to find their perfect location.

Only Bradford spa jets are 100% stainless steel construction and fully-welded into the spa walls.

The top lip of the spa and the auto cover tray are engineered to accept decking or coping materials for the finished installation.

Leading edge bar and auto cover on an all stainless steel spa. Custom wood top lip by owner.

Bradford stainless steel spas are the perfect combination of beauty and durability. Each spa is carefully handcrafted, fusing stainless steel and sophisticated tile inlays to create the most elegant and unique hot tubs in the world.

With an industry leading 25-year warranty against corrosion of the spa shell, 5-year warranty on tile adhesion, and a 1-year or 3-year warranty on the spa equipment, Bradford hot tubs are an affirmation of American-made quality and durability.

Our spas utilize advanced equipment features such as UV and Ozone Advanced Oxidation Processing, which deliver vastly improved water quality.

When combined with exceptional warranties and stunning finishes, Bradford stainless steel spas will retain their beauty and dependability for many years to come.

Standard Features:

- 30" Water Depth • LED Light
- Frame Mounted or Remote Equipment Packs
- 16 High-output stainless steel jets

Optional Features:

- Exterior Skirting Kits
- Step Kits
- Custom Tile / Stone / Other Finishes
- Vinyl and Aluminum (walk-on) covers

FINISH OPTIONS

ALL STAINLESS STEEL (*above left*) All interior surfaces are finished in a non-directional buffed stainless steel. A modern and clean aesthetic within any setting or decor.

TILE TRIM (*above right*) Spa floor, bench seats, step, waterline & top lip are finished in tile. Choose from an offering of exciting colors, patterns, and tile sizes.

FULL TILE (*left*) All the interior surfaces are finished in tile. Top-lip can be left bare for coping stone (by others), or finished in tile.
